At starting blocks for the autumn activities

EDITORIAL

After some quieter weeks over the summer, CREATE consortium is back and ready for many promising activities in the autumn: capacity building & knowledge exchange, stakeholder engagement and peer-learning activities will be the key words of September!

Enjoy the reading!

CREATE Advisory Board

The three members of the CREATE advisory board convened for the first time at the last Assembly of Partners meeting in Paris, in June. We will present them, one by one, in the next editions of our newsletters; for the first portrait let's meet with Helmut Holzapfel:

Helmut Holzapfel is a civil engineer, transportation scientist and urban planner. From 1985 until 1993 he was a government official at the Transport Ministry of North Rhine-Westphalia. Between 1995 and 1998 Holzapfel was the highest transport official in the German state of Saxony-Anhalt. Since 1993, he has been a professor at the faculty of Architecture, Urban and Landscape Planning at the [University of Kassel](#). From 2005 until 2008 he was dean of the faculty. Since 2009 he has led the research project 'Sintropher' in close collaboration with Sir Peter Hall. He is also co-editor of the transport planning journal 'World Transport Policy and Practice'.

Since 2015 Holzapfel is head of the Centre for Mobility Culture in Kassel, Germany, also in 2015 his recent book "Urbanism and Transport" appeared.

Stakeholder Engagement within CREATE

CREATE Stakeholder Engagement Group will meet alongside the CIVITAS Forum in Gdynia, on 27th September in the morning (9.00-12.30). Members of the Stakeholders Engagement Group have been invited before the summer to join the meeting, this covers the cities of: Budapest, Lisbon, Malmo, Pisa, Sofia, Utrecht, Venice as well as observers from Enschede and Nice.

Communication material for CREATE partners

CREATE project has an updated version of its template for deliverables and for events: The templates have been updated and now include a reference to CREATE project's website. All documents are available on the internal area.

CREATE project on LinkedIn

CREATE project has a group on LinkedIn: join us by looking for CREATE-mobility group!

Share about your/any interesting activities related to sustainable urban mobility and tackling congestion on

Past and Upcoming events

- **International Summer School, Sustainable mobility made in Leipzig** (15-19 August 2016)

Our colleague from TUD, Prof Regine Gerike presented her expertise – and a bit of CREATE work- at this summer school.

More information

- **CIVITAS conference, Gdynia** (28-30 September 2016)

CIVITAS is the major annual conference for urban mobility experts. CREATE project will be present with 2 sessions: one by Prof Peter Jones and one by Prof Laurie Pickup, together with the sister projects FLOW and TRACE.

CREATE will also share a stand where participants will be invited to ask questions on our results and our activities.

Training session in Gdynia

CREATE project will hold a training session focusing on *Urban mobility data & performance indicators: How to collect them and make the most of them?* on 27th September, right before the CIVITAS Forum in Gdynia. This session targeting mobility experts knowledgeable on data and performance indicators, will be delivered by Prof Peter Jones and Prof Graham Cookson and will give space to practical exercises and group discussions.

Registrations open until 6th September by [clicking here!](#)

Preparation of the mentoring visits

CREATE peer-learning activities are going on! After the successful series of workshadow visits last spring, we are now heading to the second step of the exchange: the mentoring visits.

Preparation of the mentoring visits will start with Stage 1 cities – Adana, Amman, Bucharest, Tallinn and Skopje-preparing their “*Mentee learning needs*” document by 6th September.

With the support of EURO CITIES secretariat, the Stage 3 cities – Berlin, Copenhagen, London, Paris and Vienna-will develop a mentoring strategy which will guide the pair through the project to reach the best possible results in terms of exchange of practice and of knowledge.

An internal conference call will be organised in the coming weeks to help partners in the development of these visits and reply any questions.
